ALONG THE RIVER FRONT

THE NAVAL YACHT ONEIDA READY

Practice Vessel for District Naval Battalion-Heavy Winds Cause Unusually High Tide.

The overhauling and fitting up of the

United States naval yacht Oneida as a practice vessel for the use of the naval battalion of the District National Guard has been completed and the handsome little craft has been brought from the navy yard and is now lying at the wharf of the old Inland and Seaboard Coasting Company at the foot of 7th street, adjoining the arsenal grounds. A force of shipkeepers is aboard her cleaning up the bright work and putting her in shipshape order. The Oneida was one of the yachts purchased by the government during the war with Spain for the auxiliary navy. With the U. S. S. Fern and the Onelda the naval battalion is admirably equipped for ed-ucation in the duties of a seaman. The supply of fish received by the deal-ers at the 11th street wharf market, while

The supply of fish received by the dealers at the 11th street wharf market, while not large, was ample to meet all demands this morning. The prices today ranged as follows: Gray trout, sold at \$6 to \$8 per barrel; porgles, \$3.50 per barrel; croakers, \$3 per barrel; flounders, 5 cents per pound; black bass, 10 to 12 cents per pound; bluefish, 7 to 9 cents per pound; large trout, 5 to 6 cents per pound; white perch, 10 to 15 cents per pound; pan rock, 6 to 10 cents per pound; medium rock, 8 to 10 cents per pound; Spanish mackerel, 15 cents per pound; carp, 20 to 30 cents each; catfish, 10 to 35 cents per bunch; eels, 20 to 30 cents per bunch and hard crabs, \$1 per barrel.

The demand for oysters at the wharf continues fairly good and with continued cool weather will largely increase. Prices remain firm, the smaller stock selling at 40 to 60 cents per bushel and the large oysters at 70 to 80 cents per bushel. The large marine rallway at the Alexandria shipyard has been temporarily disabled by the breaking of the heavy chain used to haul it from the water. The damage is now being repaired and the railway will be ready for service in a few days.

The heavy easterly winds which have been blowing on the coast for the past week are causing unusually high tides for this season of the year. Yesterday even-

week are causing unusually high tides for this season of the year. Yesterday even-ing the water was so high that several of the wharves at Alexandria were awash, and all the lowlands at the south end of the Long bridge and on the Potomac Park were under water. There is no fear of a tide high enough to do harm here. The Randall line steamer Estelle Ran-

dall, which is laid up for repairs, will not be ready for service until about October 15. Workmen are engaged in putting the 15. Workmen are engaged in putting the new crown sheet of her boiler in position, and considerable work is being done on her engine and pumps. In and Out of Port.

The two-masted schooner T. D. Purnell having discharged a part of her cargo of canned goods at Alexandria, has come to this port to complete unloading. The barge Annie took a load of terra

cotta piping from the cars at Shepherd's landing of the Baltimore and Ohio railway yesterday and sailed for Fort Washington. The canal barge Potomac, laden with fertilizer by Bryant & Co., at Alexandria, has salled for points on the Chesapeake and Ohio canal.

sailed yesterday, took a large cargo of sup-plies from this city and Alexandria to the merchants at points on the lower river. She also had quite a large passenger list. The Baltimore tug Samson, with the four-masted barkentine Doris in tow, left port this morning for Baltimore, where, after being overhauled, the vessel will load. The two-masted schooner Emily E. Burton has unloaded her cargo and has sailed for a river point. She will, it is stated. load a cargo of canned goods.

The schooner Father and Son has arrived

The schooner Father and Son has arrived in port with a cargo of cord wood from Aquia creek for Carter & Clark. Aquia creek for Carter & Clark.
The flattle Rattling Joe, laden with Poto mac river oysters, arrived at Alexandria yesterday. This is the first oyster-laden vessel to come there this season. The two-masted schooner Hattle C. Wheatley is at the wharf of Thos. R.

Riley, foot of O street southwest, unloading a cargo of about 40,000 feet of pine The schooner Sidney Jones has sailed light for a river point, and will load a cargo for this market. The barge William Washington, laden with lumber and building material for

Fort Washington, sailed from Alexandria The bugeye R. H. Stuart and the Wm. Turner have gone to Curriomen bay, and will load oysters for the dealers in this

The barge York will leave Alexandria today for the Wicomico river, Maryland, to load poplar wood for Philadelphia.

The schooner Five Sisters has arrived in port with a full cargo of lumber from a river point for Johnson & Wimsatt.
The schooner Amanda F. Lewis has

sailed for a lower river point, and will load The Carrie C. Pinto, having unloaded her cargo of lumber, will sail today for the Coan river for another cargo.

The schooners Ethel and Lucille Western are in port with cargos of income.

are in port with cargoes of river oysters The steamer Occoquan is at Alexandria, loading a miscellaneous cargo for the stores on Occoquan creek. She is lying at the Duke street wharf.

Of General Interest.

The flattle disabled in the river by the breaking of her mast is not the Northumberland, as was supposed. The craft has been towed into the cove near the mouth of Piscataway creek for temporary repairs. The smokestack of the Mount Vernon line steamer Charles Macalester has been painted a dead black, the use of the silver aluminum paint having proved to be un-

One of John Miller's large mud and sand scows is hauled out on the marine railway at Bennett's boat yard for an overhauling. The longboat Silver Star, which has been on the railway at Bennett's boat yard for ten days past receiving a general content. on the railway at Bennett's boat yard for ten days past, receiving a general overhaul-ing, has been put overboard, and will be ready for service early next week. The steam scoop dredge Fannie has been taken by the tug Wm. H. Yerkes, jr., to West Point, where she will be employed in some of the dredging operations there for the government

the government. One of the large sand-digging machines of the Columbia Sand Company of this city is operating on the Maryland side of the river near Chapman's fishing shore. The sand she digs is brought to this city in lighters.

The schooner Isaac Solomon, which was undergoing repairs at the Alexandria shipundergoing repairs at the Alexandria ship-yard, has been completed and put over-board. She is now ready to go into service. Quantities of powder are being shipped from Fort Washington to the Dupont pow-der works in New Jersey. The steamer Samuel J. Pentz has made several special trips to carry it.

trips to carry it.

Mr. Laurence Perry, treasurer of the Washington and Alexandria Ferry Company, will leave tonight for New York to witness the yacht races.

Mr. Wm. A. Moore has again taken charge of the engine room of the steamer Samuel J. Pentz on the Glymont mail

Captain Willard M. Wade, who has command of the new schooner Wm. H. Yerkes, is well known here, having been the commander of the schooner Madaline Cooney.

Mr. Julian Moore has returned home from a trip to the Pan-American exposi-tion at Buffalo.

LAUREL BOARD OF TRADE. Committee Appointed to Arrange for Incorporation-Other Items. Special Correspondence of The Evening Star.

LAUREL, Md., September 27, 1901.

The first regular fall meeting of the Laurel board of trade was held Wednesday night in Hill's Hall in this town, and, as a result of that session, important changes will be made in the status of the organization. For some time those in authority in the board have not been pleased with the conditions existing, some complaining that there was too much of the board business that was neglected by a number of the committees whose duty it was to act on certain subjects. It is thought the board will be reorganized. A committee of five members was appointed at the meeting to consider the question of having the organization incorporated under the laws of the state of Maryland. This committee will report next Wednesday night at a specially rel board of trade was held Wednesday

Satisfactory Clothing.

called meeting of the board of trade.

Reports have been received in regard to the experiment of raising cucumbers in this the experiment of raising cucumbers in this continuous. called meeting of the board of trade. section of the different counties contiguous to Laurel. Through the efforts of the local organization a convention of farmers of Anne Arundel, Howard, Montgomery and

Prince George's counties was held here June 15. A great deal of enthusiasm was exhibited by all those present at this meeting, and experts from the Maryland Agricultural College addressed the meeting, who gave the assurance that the vegetable could be raised in this section with as much suc-cess as would be had anywhere in the United States. The reports so far sent in, however, have not come up to the expecta-tions of those interested in the subject, but few favorable returns having been made to the committee.

A proposition submitted to the board of trade by a well-known merchant of this town for the establishment of a flour mill here was unfavorably acted upon. The proposition was made that money should be advanced for the purchase of the ground upon which the structure will be erected, and that the property be exempted from the city and water taxes for the term of

five years. An inquiry was made during the past week as to the advisability of the establishment of a steam laundry in Laurel. A canvass was made of a large number of the merchants here relative to the proposed plant, and it is understood the party making the investigation received much encouragement.

The committee on transportation made a report at the meeting on the proposed extension of the electric road from the present terminus at Berwyn to this point. It was stated that the promoters of the road have met with a great deal of opposition on the part of the property owners between this point and Berwyn in the matter of right of way. It is thought, however, that the matter can be settled or more than the

HAGERSTOWN NEWS GRIST. Fine Corn Crop in Washington County
-Weddings Announced.

Special Correspondence of The Evening Star. HAGERSTOWN, Md., Sept. 26, 1901. Samples of this year's corn crop are about the finest seen in years, and farmers state that the crop will be large and fine in every way.

The announcement that there was a possibility of the Pennsylvania railroad getting control of the Western Maryland was not good news to Washington county, which has over \$500,000 invested in the railroad. The general opinion is that it would be against the interests of Washing-ton county for the Pennsylvania to buy or secure control of the Western Maryland, as it would destroy an independent line. Protests are made against the sale of the road at this time, when vast improvements are being made here and at other points on

are being made here and at other points on its west end extension to handle its greatly increasing traffic.

The handsome new Christ Reformed Church, at Martinsburg, has just been consecrated. This church has been building since May 7, 1990, and cost about \$30,000. Rev. J. A. Hoffhines conducted the consecration services and Rev. G. W. Richard preached the sermon.

Among the students at Kee Mar College, Hagerstown, this session are the Misses Suter, Misses Dodge, Miss Coleman and Miss Beard from Washington, and two daughters of Senator Thurston from Nebraska, and also the two daughters of Representative Purman.

Asthma by the Koch Inhalation.

The Two Drs. Koch And Their Great German Discoveries and Inventions

Several years ago Doctor Robert Koch perfected his tuberculine medicine for cure of consumption. It was the first remedy that ever did actually cure this fatal disease, although by injection is only succeeded to a limited extent. Two years later the wonderful Inhalation Machine for the vaporizing of healing oils combined with this Koch Tuberculine was invented and imported to this country by Dr. Edward Koch. By the use of this invention oh, vapors, combined with the tuberculine medicines, are brought directly to the very seat of the disease, and thousands of people have testified to being cured. Since

these two systems have been combined the patients and offices have been under the direct control of Dr. Edward Koch. The old way of swallowing medicine into the stomach kills more people than the disease itself.

Dr. Koch attends this office regularly. Consultation is free. These doctors have spent a lifetime in the treatment and cure of Consumption and Asthma, and Dr. Koch is making a trip of investigation of the American Koch Lung Cure offices, which can be found in most of the large cities, the Washington office being at 627 E st. n.w., Washington, D.
